iPAD* IS
COMING
HOME!

THE WHD SOUNDPAD

Rotating iPad* docking station with automatic eject function and line out for connection to any stereo amplifier

Features

- To insert and recharge your iPad* 1, 2 and the new iPad*
- The device is surface mounted and can be rotated to apply the different applications of the iPad* optimally
- Line-Out for connection of an external amplifier e.g. AMP 130
- Playing Music via Bluetooth e.g. in combination with the Bluetooth receiver BTR 011 or BTR 55
- Control options: Eject (operating directly on the Soundpad); volume, source selection (eg Internet radio, mp3 player, ...), Track, EQ, ... via iPad*
- Display possibilities: title information, station names, ... (via iPad*)
- Color: white or black

For Retrofitting

- With Bluetooth Receiver BTR 011 and powered hi-fi speaker Mini 4-AMP/2

For New Construction

- With Additional Amplifier AMP 130 and any hi-fi speakers, e.g. M/R 240 Basic.
- With Bluetooth-Receiver BTR 55
- As a supplement to the WHD multiroom systems
